Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year’s IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2020-21. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

You have programs with the teacher of record model, but "clock hours of supervised clinical experience required prior to teaching as the teacher of record" and "years required for teaching as the teacher of record" are 0. Please correct the data, or confirm.

☒ I confirm that there are 0 hours required

Are there programs in which candidates are the teacher of record?

☒ Yes

☐ No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)

Please provide any additional information about or descriptions of the supervised clinical experiences:

Candidates complete an average of 80 hours of experience prior to student teaching. This experience is supervised by the same faculty member who will provide supervision to that individual during the final clinical experience of 15 weeks. Each candidate receives a supervised visit by a university supervisor no less than 7 times.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

No Race/Ethnicity Reported	<div>0</div>	<div>0</div>

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

>> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2020-21.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

☐ No teachers prepared in academic year 2020-21

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2020-21. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(\\$205\(a\)\(1\)\(A\)\(iii\); \\$206\(b\)\)](#)

Program Assurances

Note: This section is preloaded from the prior year’s IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

- ☒ Yes
- ☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

- ☒ Yes
- ☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

- ☐ Yes
- ☐ No
- ☒ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

- ☒ Yes
- ☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

- ☒ Yes
- ☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

- ☒ Yes
- ☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

- ☒ Yes
- ☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

We regularly place students in a variety of diverse classrooms that include urban, suburban and rural settings. All coursework includes the general theme of teaching diverse students. In addition, we keep track of each candidate's fieldwork placement in a document we created - "The Field Experience Depth and Breadth Chart". This allows us to ensure each candidate has participated in a variety of field placements that will give the candidate authentic experiences so they are well prepared for the classroom.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

2. Describe your goal.

Our goal is to prepare 2 candidates in mathematics.

3. Did your program meet the goal?

- ☐ Yes
- ☒ No

4. Description of strategies used to achieve goal, if applicable:

Recruitment - Bethel enjoys a strong reputation in the area and as a result, we are able to get into area schools and share our program and the benefits of pursuing a career in education. Rigorous/High-Quality Programming - We continue to use data to refine our program and ensure we are preparing teacher candidates for the demands they will face in the classroom. We endeavor to ensure they have the skills, knowledge, and dispositions to be successful in the classroom. Support - All faculty serve as advisors/mentors and as a result, our faculty enjoy a strong relationship with all teacher candidates in the department. This assistance and encouragement extend to the first year of teaching.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We will continue to follow the program outlined above (#4), as we have enjoyed success in the program and our results speak for themselves. Our

teacher candidates are successful in passing content exams and survey data from completers and those who hire them indicate that our completers are well prepared for the classroom.

6. Provide any additional comments, exceptions and explanations below:

4. Description of strategies used to achieve goal, if applicable:

Recruitment - Bethel enjoys a strong reputation in the area and as a result, we are able to get into area schools and share our program and the benefits of pursuing a career in education. Rigorous/High-Quality Programming - We continue to use data to refine our program and ensure we are preparing teacher candidates for the demands they will face in the classroom. We endeavor to ensure they have the skills, knowledge, and dispositions to be successful in the classroom. Support - All faculty serve as advisors/mentors and as a result, our faculty enjoy a strong relationship with all teacher candidates in the department. This assistance and encouragement extended to the first year of teaching.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We will continue to follow the program outlined above (#4), as we have enjoyed success in the program and our results speak for themselves. Our teacher candidates are successful in passing content exams and survey data from completers and those who hire them indicate that our completers are well prepared for the classroom.

6. Provide any additional comments, exceptions and explanations below:

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

☒ Yes

☐ No

b. use technology effectively to collect data to improve teaching and learning

☒ Yes

☐ No

c. use technology effectively to manage data to improve teaching and learning

☒ Yes

☐ No

d. use technology effectively to analyze data to improve teaching and learning

☒ Yes

☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Candidates complete assignments that require the basic use of technology to present information during instruction, to search for information through the use of technology, and to use technology to collect and organize student data. This is included in the first instructional module. During the second module that includes content pedagogy, candidates complete assignments that require them to collect student data and analyze it to improve future instruction. The culminating assessment during the third module is an Impact on Student Learning assignment that requires students to plan, instruct, and assess student learning. Then candidates use the assessment data to pinpoint student learning problems and make adjustments to future instruction and assessment.

Provide the following information about your teacher preparation program.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

All candidates are required to complete coursework that addresses how to effectively instruct students with disabilities in the general education classroom. This is specifically incorporated into the following courses for all education candidates: 1. "Teaching in the 21st Century"; and 2. "Classroom Environment". Elementary candidates also take "Reading Language Arts Methods I", "Reading Language Arts Methods II", "Reading Language Arts Methods III", and "Methods of Teaching Elementary Grades". Secondary and all-grade candidates also take "Methods of Teaching Secondary Grades" and "Reading and Writing Across the Curriculum". In addition, each candidate completes an intensive fieldwork practicum that incorporates field-specific activities that prepare candidates to effectively meet the needs of students with disabilities. Upon review of coursework, candidates will receive instruction in: modified direct instruction; learning strategy instruction; and using a sequential, simultaneous structured multi-sensory approach. In addition, candidates gain experience working directly with students who have disabilities in the general education classroom and/or an environment where students are learning in a special class setting, focusing the activities unique to the individual student with attention paid to the important role of assessing individual students in order to monitor their progress through the curriculum toward mastery of Student Learning Outcomes and goals. Due to the critical importance of a candidate's ability to work with students' who have disabilities, our teacher candidates also receive instruction in effectively working with this group of students in their remaining education coursework - albeit in more general terms.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

All candidates are required to complete coursework that specifically addresses the ability of a teacher candidate to participate as a member of the individualized education program team. This is specifically incorporated into the following courses for all education candidates: 1. "Teaching in the 21st Century"; and 2. "Classroom Environment". Upon review of course expectations, it is clear that the learning outcomes for teacher candidates prepare them to participate as a member of the individualized education programs team in the following ways: 1. Candidates understand that students with disabilities have an IEP that has a plan for their educational needs and guides their instruction; 2. Through practical examples and authentic experiences, candidates are aware that the general education teacher is required to provide the accommodations and modifications that are listed in the IEP; 3. Teacher candidates are knowledgeable about the role they will play on the team and through class assignments and authentic experiences, they are prepared to give input to the team in order to make a learning plan that meets the students' needs in the classroom environment; 4. Candidates are also aware that, as a general education teacher, they must determine appropriate positive behavioral interventions and support, and other strategies for the child – in addition they must determine which supplementary aids and services, program modifications, and support for school personnel are needed to help the child: a. progress toward attaining the annual goals; b. be involved in and make progress in the general education curriculum; c. participate in extracurricular activities and other nonacademic activities; and d. be educated and participate with other children with disabilities and those who are not disabled. In addition, the teacher candidate will be prepared to take part and offer meaningful suggestions at the IEP meeting which will directly support the decisions about what types of supplementary aids and services the child may need to be successful in that setting. Teacher candidate will have experience with these supports and services: 1. adapting the curriculum; 2. providing reading materials written at a lower reading level; 3. using graphics along with written materials; and/or 4. when it is appropriate to provide a student with assistive technology and possibly an assistant.

c. Effectively teach students who are limited English proficient.

All candidates are required to complete coursework that addresses how to effectively meet the needs of students who are limited English proficient in the general education classroom. This is specifically incorporated into the following courses for all education candidates: 1. "Teaching in the 21st Century"; and 2. "Classroom Environment". Elementary candidates also take "Reading Language Arts Methods I", "Reading Language Arts Methods

II", "Reading Language Arts Methods III", and "Methods of Teaching Elementary Grades". Secondary and all-grade candidates also take "Methods of Teaching Secondary Grades" and "Reading and Writing Across the Curriculum". In addition, each of these courses has a fieldwork component that incorporates field-specific activities that prepare candidates to effectively meet the needs of students who are limited English Proficient. Upon review of coursework and field-base assignments, candidates will receive instruction in: 1. Vocabulary and language development; 2. Guided interactions where the teacher candidate learns to structure instructional activities that allow the students to work together to understand what they read—by listening, speaking, reading, and writing collaboratively about the academic concepts in the text; 3. Explicit instruction that will enable the teacher candidate to use clear instructions or direct teaching of concepts, academic language, and reading comprehension strategies to complete classroom tasks; 4. Incorporating real world examples and content-based learning which enable the candidate to use real-life and fictitious examples in teaching environments to learn through the actual, practical experience with a subject rather than just its mere theoretical parts; 5. Graphic organizers and modeling provides clues and visual cues to the language context to help English Language Learners grasp concepts, thereby making the content more accessible to the students; and 6. Authentic assessment – teacher candidates learn to model and explicitly teach thinking skills (metacognition) crucial to learning new concepts. With authentic assessments, teacher candidates use a variety of activities to check students' understanding, acknowledging that students learning a second language need a variety of ways to demonstrate their knowledge of concepts that are not wholly reliant on advanced communication skills. Most fieldwork placements our teacher candidates receive are in schools that are diverse and have a high percentage of limited English proficient students, giving our teacher candidates multiple opportunities to learn and progress toward mastery of these key instructional components. We keep track of all fieldwork assignments in our "Experience Depth and Breadth Chart" to ensure sufficient exposure and experience to all types of learning environments.

2. Does your program prepare special education teachers?

- ☐ Yes
- ☒ No

If yes, provide a description of the activities that prepare *special education teachers* to:

- a. Teach students with disabilities effectively**
- b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.**
- c. Effectively teach students who are limited English proficient.**

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

School of Education – Title II Report Bethel University is a comprehensive, coeducational institution of higher education offering undergraduate and graduate degree programs. Excellence in the teaching, research, artistic performances, and professional public service provided by its faculty, staff, and students are hallmarks of the university. As a community of scholars, Bethel University develops the individual's critical thinking skills, appreciation of the arts, humanities and sciences, international understanding for participation in the global society, professional knowledge and skills to enhance economic productivity, and commitment to lifelong learning. Teacher Preparation: The Teacher Preparation Program reflects a commitment to collaboration with K-12 schools in the area for the mediated induction of our students to the teaching profession through clinical experiences in local schools. Teacher candidates have experiences in schools throughout their preparation. All candidates are provided opportunities to work with students who reflect the rich diversity of our community. The university provides a range of undergraduate teacher preparation programs including those that prepare teachers for K-6, 5-9, 5-12, and All-Grade certification. These programs are designed to prepare candidates to meet state and national standards (InTASC) and standards adopted by the Indiana Department of Education. The Teacher Preparation Program is nationally recognized by the NCATE/CAEP. Bethel University provides teacher certification programs for post-baccalaureate students in addition to undergraduate teacher preparation programs. Program Highlights/Additional Information: The Teacher Preparation Program is based on best practices as defined by current research. The program emphasizes collaboration among the university, partner school districts, and stakeholders. The curricula prepare students with knowledge of curriculum and instruction, state-of-the-art teaching practices, effective application of technology, and strategies for working with diverse populations of students. Sequenced field experiences are aligned with course work to facilitate the development of instructional skills and professional dispositions needed by teacher candidates to provide effective instruction to students from a variety of backgrounds and with varying abilities.
